## HOW TO PLAY

Cajun Stud is a five-card poker game that lets you bet up to 10 units on a single hand. In Cajun Stud, you will compete against a payable, not against the dealer. You win if your hand is a pair of Jacks or better (pair of 6s – 10s push). The top payout is 500:1 for a Royal Flush – and it pays on all bets.

## GETTING STARTED

Make an Ante bet to receive your first two cards. You may also make some or all of the optional bonus bets. The dealer will place the community cards face down in the middle of the layout.

## PLAY OR FOLD?

At this point, you may either fold or make the 3rd Street bet of 1x-3x your Ante. The dealer then reveals the first community card. Once you see the first community card, you have a choice: fold or make the 4th Street bet of 1x-3x your Ante. The dealer then reveals the second community card. Once again, you must fold or stay in the game by making the 5th Street bet from 1x-3x your Ante.

*Note: When you fold you forfeit all bets left in action.*

## WINNING AND LOSING

After the dealer turns over the final community card, he/she resolves all wagers left in action. You win if your five-card hand is a pair of Jacks or better (pairs of 6s-10s push). See payable for odds.

## OPTIONAL BONUS BETS

Cajun Stud features optional bonus bets:

- POCKET BONUS pays if your first two cards form a pair or an Ace-Face
- BOARD BONUS pays if the three community cards form a Pair or higher
- LO BALL WAGER pays if your two cards plus the three community cards are a Jack High or lower.

See paytables on layout for odds of winning wagers.
